

Declaration of Conformity

Perfluorooctane Sulfonates ("PFOS") and Perfluorooctanic Acid ("PFOA")

On December 12, 2006, European Union Directive 2006/122/ECOF went into effect. This Directive restricts the use and placing on the market of PFOS, and suggests that similar restrictions should be implemented for PFOA and its salts.

Intersil Corporation's products do not contain PFOS or PFOA, and Intersil is compliant with the PFOS Directive.
